THE ROLE OF THE COMMISSION FOR INDEPENDENT EDUCATION

- *To serve as a consumer protection agency*

By protecting the individual student
By promoting accountability at the
independent postsecondary level

- *To protect the integrity of these
institutions*

By assuring that certain standards are
met

- *To encourage independent institutions to
offer programs that meet the needs of
Florida citizens*

EXECUTIVE SUMMARY

The Commission's Role in Implementing Florida's Next Generation PreK-20 Education Strategic Plan

Expand opportunities for postsecondary degrees and certificates

- The Commission for Independent Education (Commission), through the Office of the Executive Director, completed the review of 317 applications for Annual License and the Annual Review of 272 License by Means of Accreditation (LBMA) applications for non-degree and degree-granting institutions during the 2010-2011 fiscal year. The Commission also processed 56 applications for Extension of Annual License. Sixty-five (65) institutions received their first Annual License and 69 accredited institutions were granted their first LBMA. Additionally, the Commission received 104 applications for Annual License Renewal, 16 applications for Annual License Extension, 33 applications for first Annual License, 72 LBMA Annual Reviews, and 6 applications for first LBMA that were not completed because all of the conditions for licensure had not been met.
- The Office of the Executive Director reviewed 80 new institutional applications for a Provisional License during the 2010-2011 fiscal year. The applications were then submitted to the Commission and the institutions subsequently received a Provisional License. Also, sixty-seven (67) Provisional Applications were not placed on a Commission agenda because all of the conditions for approval had not been met. Commission staff also reviewed applications from collegiate institutions to create a branch campus. The applications for seven (7) Branch Campuses were approved by the Commission and the applications for six (6) Branch Campuses were not completed because all of the conditions for approval had not been met.

EXECUTIVE SUMMARY....continued

- Sixty-two (62) licensed institutions were reported as closed and 20 licensed institutions underwent a Change of Ownership/Change of Control during the 2010-2011 fiscal year. At the close of the fiscal year, a total of seven (7) institutions were still working on fulfilling contingencies in order to have their Change of Ownership/Change of Control approved.
- Any institution that seeks to add a new program or modify a licensed program must seek prior approval from the Commission for Independent Education. The Commission examined applications for 248 new program offerings and reviewed 72 modifications to existing programs during the 2010-2011 fiscal year. In addition, Commission staff reviewed 895 new program applications submitted by LBMA institutions. At the close of the fiscal year, there were 116 applications for new programs, 19 modifications to existing programs, and 114 new LBMA programs that were not completed because all of the conditions for approval had not been met.
- Three hundred seventy-seven (377) degree-granting institutions are under the jurisdiction of the Commission. The total reported enrollment for the degree programs during FY 2010-2011 was 264,491, with 55,651 reported graduates. Currently, 335 (89%) of these degree-granting institutions are accredited by one or more regional or national accrediting agencies.

[NOTE – Some of these institutions offer both non-degree and degree programs]

- A total of 567 licensed institutions offer only non-degree programs. The 2010-2011 reported enrollment for all non-degree programs was 73,500, with 44,531 reported graduates. Of these graduates, 36,181 (82%) were placed in jobs, joined the military, or are continuing their education at an institution of higher learning. Currently, 145 (26%) of the licensed, non-degree institutions are accredited by one or more regional or national accrediting agencies.

EXECUTIVE SUMMARY....continued

Skilled workforce and economic development

- For the twentieth year, Commission staff worked with the Florida Education and Training Placement Information Program (FETPIP) to track the placement of graduates of independent non-degree and degree-granting institutions. This fiscal year, 52 non-degree institutions and 98 degree-granting institutions agreed to participate in this data collection effort. The participating institutions submitted graduate data via the Commission's FETPIP Data Collection Web Page. These institutions submitted information on a total of 42,256 students who had graduated during the previous fiscal year (2009-2010). This spring, FETPIP attempted to match the student records with employment data in order to verify each graduate's employment status and occupation. A report of this information, aggregated on a program-by-program basis, will be sent in November 2011 to each participating institution.
- Commission staff members work with the DOE's Division of Accountability Research and Measurement staff to continuously update the common set of Classification of Instructional Programs (CIP) codes used by Florida's public and nonpublic postsecondary education sectors. This taxonomy allows programmatic offerings from both the public and private vocational education sectors to share common CIP codes and CIP titles, where possible, and to have distinct CIP codes and CIP titles when necessary. In addition, each of these programs is "linked" to an occupation using the codes found in the Standard Occupational Classification Manual. This linkage is used by the Agency for Workforce Innovation and the Regional Workforce Development Boards to identify which institutions offer training programs that lead to occupations included on the Targeted Occupations List.

EXECUTIVE SUMMARY....continued

- The Commission has been exchanging information with staff from the Florida Department of Veteran's Affairs' Bureau of State Approving for Veteran's Training, the Department of State's Division of Corporations, and the Department of Education's Office of Student Financial Assistance. These exchanges are part of an on-going effort by the Commission staff to become more involved with any agency that may have an impact on the Commission and the institutions under its jurisdiction.
- The Commission staff has been meeting with staff members from the state agencies that are responsible for the licensure of individuals who enter certain professions. Since institutions under the Commission's jurisdiction offer many of these programs of study, the Commission has begun to exchange data with these other agencies in an attempt to develop uniformity between the standards that govern the licensing of institutions, the regulations for licensing professionals, and the rules governing the practice of a profession. Some of these regulatory groups are: The Florida Department of Health's Board of Acupuncture, Board of Massage, Board of Nursing, Board of Dentistry, Board of Pharmacy, Bureau of Emergency Management Services, the Florida Council on Licensed Midwifery, and the Electrolysis Council; the Department of Business and Professional Regulation's Board of Cosmetology; the Department of State's Bureau of Licensing; and the Department of Transportation.
- The Commission has submitted data concerning licensed institutions and the programs they offer to the Agency for Workforce Innovation (AWI). These data are to be included in the Eligible Training Provider List (ETPL). The ETPL is used by Regional Workforce Development Boards (RWDB) to determine which institutions offer training programs that lead to the occupations that are contained within the Targeted Occupations List.

EXECUTIVE SUMMARY....continued

- Commission staff continues to supply data regarding independent colleges and universities (and their degree-based programs of study) to the FACTS (Florida Academic Counseling and Tracking for Students) website (<http://www.facts.org>). This online computer software application is used by students throughout Florida to plan for, and to monitor the progress of, their postsecondary education at participating Florida institutions.
- Members of the Commission's staff participate in the Workforce Estimating Conference (WEC). The Florida Department of Education, Workforce Florida, Inc. (WFI), and AWI participate in the WEC to in order to coordinate the approval of occupations for the Targeted Occupations List. This conference is crucial for the successful implementation of workforce development initiatives in Florida.

Records

All applications, forms, correspondence, and other materials submitted to the Commission are considered public record under the Public Records Law. These documents are available to the public at the Commission office at 325 West Gaines Street, Suite 1414, Tallahassee, Florida 32399-0400. The retention schedule for these records is three (3) years. In addition, student records from closed institutions are permanently stored (in electronic form) at the Commission office.

Annual Report

Florida Statutes require the Commission for Independent Education to prepare an Annual Report of its activities. This report is sent to the Commissioner of Education for submission to the State Board of Education. Additional copies are submitted to the Governor, the Speaker of the House of Representatives, the President of the Senate, the minority leader of the Senate, and the minority leader of the House of Representatives.

EXECUTIVE SUMMARY....continued

Meetings

The Commission meets bimonthly, usually in the months of January, March, May, July, September, and November. The Commission meetings normally last at least one day. All meetings of the Commission, and any of its committees, are open to the public. Advance notice of these meetings is always given through the Florida Administrative Weekly. The Commission maintains official minutes of its proceedings, an audio tape recording of every meeting, and has a video record of the meetings that are webcast.

Each Commission member receives the meeting agenda before each meeting as an automated document (on CD). This CD contains “links” to images of all of the documentation pertaining to each agenda item. This “automated agenda” also allows each Commission member to enter comments, for future reference, directly onto their copy of the electronic document.

The Commission conducted the first webcast of a Commission Meeting in March 2005. The Commission has now webcast all of the regular meetings since the 2006-2007 fiscal year and is planning to continue to webcast all of the Commission meetings during the 2011-2012 fiscal year.

Institutional Database

The Commission serves as the central agency for the collection and distribution of current information regarding the institutions under its jurisdiction. These data may include, but are not limited to, information such as: the institution’s administration; the length of all programs; student costs; student enrollment, number of graduates, and graduate placement (in accordance with Rule 6E-2.002(10)(c); F.A.C.) student demographics; the date of licensure and next annual license renewal; and the institution’s street address and phone number.

EXECUTIVE SUMMARY....continued

Other information is collected in response to specific needs or inquiries. All of these data have been incorporated into the Commission's Information Management System (CIMS).

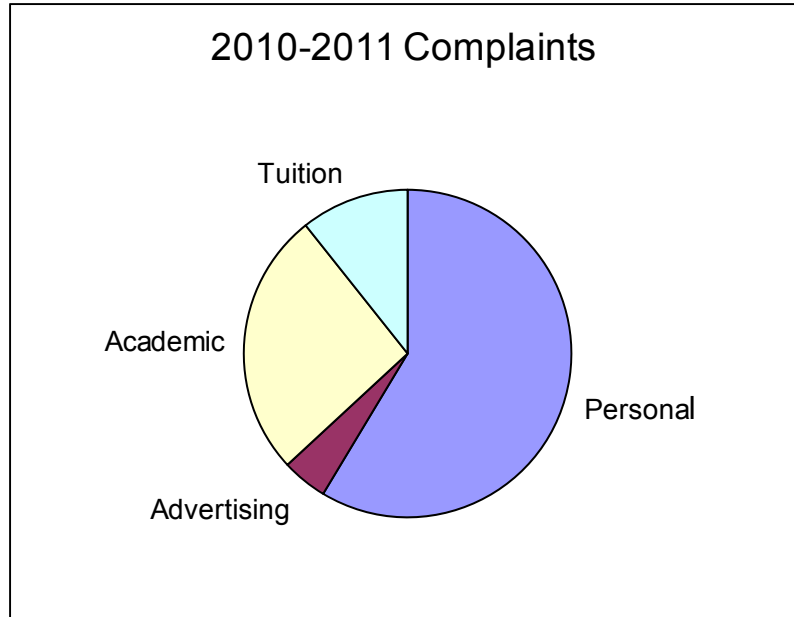

The design elements of the CIMS have now expanded to include all the various "systems" that the Commission uses to manage and present information. These systems include the Commission's database, the Commission's website, the Commission's automated agenda, the Commission's electronic presentations (i.e. PowerPoint), the use of automated e-mail messaging (including videos), and the coordinated development of office systems to support these automated systems.

On-site Visitations

The CIMS continues to be used to schedule all of the Commission's on-site visits to licensed institutions. As on-site visits are requested by the Commission, an interface with the Google Earth software application is used to locate all other licensed institutions in the selected area. The requisite information for all institutions that are selected for an on-site visit is then transmitted, via the Internet, to the Commission's Institution Evaluators in the field.

Commission for Independent Education staff conducted 570 on-site visitations to schools, colleges, and universities under the Commission's jurisdiction during the 2010-2011 fiscal year. These visits were carried out to evaluate an institution in terms of physical facilities, student records and student record storage, on-site equipment and supplies, instructional and administrative personnel, the institution's catalog and student contract, class schedules, academic programs, tuition charges, placement and counseling services, agents' licenses, faculty qualifications, and advertising policies.

EXECUTIVE SUMMARY....continued

Complaints

The Commission investigates complaints about institutions under its authority in order to ascertain whether or not legitimate deficiencies exist. During the 2010-2011 fiscal year, 290 complaints were received in the Commission's office. The complaints can be grouped in the following areas: 13 - institutional advertising; 76 - academic matters; 31 - tuition, refunds and other costs; and 170 - personal problems. Any allegations that are received by the Commission, concerning any of these issues, are referred to the Consumer and Compliance Services Section in order to ascertain if there has been a violation of the Commission Rules or of the pertinent sections of the Florida Statutes.

The Commission also sent 35 Letters of Noncompliance to entities that appeared to be operating a school or college without a license. If the organization cannot show that its activities legitimately fall outside the Commission's jurisdiction, it is expected to cease the cited activity and to apply for and obtain a Provisional License from the Commission.

ANNUAL LICENSES SENT

The Commission, through the Office of the Executive Director, monitors the activities of each school, college and university. The Commission requires the First Annual License, Annual Renewal of Licensure, License by Means of Accreditation, or the License by Means of Accreditation Annual Review of each non-degree school and of each degree-granting institution. These reviews monitor information pertaining to any changes in the program offerings and curriculum, tuition, institutional policies, institutional administration, institutional ownership and control, administrative staff, and instructional personnel. These schools, colleges and universities must also provide annual information, for each program of study, which pertains to enrollment, withdrawals, and graduates. Institutions also supply statistical data on the composition of the student population. Any institutions offering non-degree programs must also pay Student Protection Fund fees. Commission staff also annually review the required current and projected financial documents, any applicable contracts/enrollment agreements, and the institutional catalogs.

Three hundred seventeen (317) non-degree schools and degree-granting colleges and universities completed an Annual Review during the 2010-2011 fiscal year. There were also 65 institutions that received their First Annual License during this time period. One hundred and four (104) Annual Reviews and 33 Applications for First Annual License received during this fiscal year, were not completed due to deficiencies in the institution's submission.

NOTE: A listing for a degree-granting institution may include multiple campuses of that institution.

EXTENSIONS OF ANNUAL LICENSES

The Commission has the authority, under Section 1005, Florida Statutes, to extend an Annual License for an additional year for those institutions that meet certain conditions. During the 2010-2011 fiscal year, the Commission granted 56 applications for Extension of Annual License. There were 16 Annual License Extensions that were not granted due to deficiencies in the institution's submission.

The following licensed institutions were sent an Extension of Annual License:

INSTITUTIONS THAT HOLD A LICENSE BY MEANS OF ACCREDITATION

The authority to grant the institutional status of License by Means of Accreditation (LBMA) was included in the statutory amendments approved by the Florida Legislature in 2002. These institutions, which are accredited by accrediting agencies that have been approved by the Commission, are granted licenses which are valid for the same period as their current grant of accreditation. In the first year of their approval by the Commission, they are granted the License by Means of Accreditation status. For each remaining year of their grant of accreditation, they must submit their LBMA Annual Review to the Commission for Independent Education in order to maintain their LBMA licensure status. In 2010-2011, sixty-nine (69) institutions were granted their First LBMA credential. In addition, the Commission conducted an annual review of 272 institutions that are currently holding a License by Means of Accreditation. Seventy-two (72) LBMA Annual Reviews and 6 First LBMA's, received during this fiscal year, were not completed due to deficiencies in the institution's submission.

The Office of the Executive Director issued a License by Means of Accreditation to the following institutions during the 2010-2011 fiscal year:

NOTE: A listing for a degree-granting institution may include multiple campuses of that institution.

STUDENT RECORDS RETAINED BY THE COMMISSION

Each year, the Commission for Independent Education receives student records from schools, colleges, and universities that have ceased operations. These student records are optically scanned and stored on the DOE network hard drives for permanent storage. These records are maintained for the future servicing of student records requests.

During this fiscal year, over 7,600 student records (in excess of 40,000 images), that were retained by the Commission as hard copies, have been transferred to electronic storage media. In addition, the Commission staff sent out 818 sets of images to students from these closed institutions who requested copies of their academic records.

Hard copy student records from the following institutions were received by the Commission this year:

American School of Jewelry

Animal Career Academy of South Florida

Audio Recording Technology Institute, Inc.

Beannies Beauty & Barber Academy, Inc.

CTC International Group Limited's School of Private Investigation

Dental Career Training Institute, Inc.

Dental Careers Institute of Tampa Bay

Doral Salon and Spa Academy

Florida Health Academy - Naples

Galiano Career Academy

Hounds Hair School of Grooming
